ABD Engineering & Design is one of the nation's largest and oldest independent acoustical engineering and audiovisual design firms. From new construction to existing structures, ABD Engineering & Design develops expert solutions to enhance communications throughout North America, and around the world. We help design and engineer audiovisual systems and acoustic environments to optimize speech intelligibility, and performance – so communications are delivered with precision and clarity. Likewise, our calculations for video and audio systems, noise reduction, and speech privacy help our clients make good decisions based on data. We are experienced, design focused, process driven, and employee oriented. ABD is proud to be a nationally Certified Women's Business Enterprise and Woman Owned Small Business, owned and lead by women, with a team of Professional Engineers and audiovisual consultants who have advanced degrees and the highest certifications in our fields.

What we do, and where we work

- Acoustical engineering and consulting
- Audiovisual design consulting
- Acoustical measurements and testing
- Environmental noise and vibration control
- Room acoustics
- Noise isolation
- Impact isolation
- Mechanical noise control
- Architectural Acoustics
- Healthcare
- University
- Corporate/Office
- K-12 education
- Houses of worship
- Industrial facilities
- Performing arts centers

Awards and Recognitions

- AIA Distinguished Professional Affiliate Award.
