

... and the first patient hasn't even arrived.

Sure, it's designed to take the best possible care of patients. The construction is totally sound. And facilities include everything modern medicine could ask for.

But if communications aren't the most modern available, a hospital is obsolete before it's even begun.

Modern hospitals need all the communications consideration you can give them.

So they can take full advantage of the telephone. Bring in Tele-Lecture or closed-circuit TV. Even tie into a computer with Data-Phone* service or teletypewriter.

And that's where a Bell System Architect and Builder Service Representative comes in. He can help

make your next hospital—and every building—as modern as modern communications can make it. And insure that communication needs of the future will fit in without expensive alterations.

Just call 212-393-4537 collect. We will send you a complete list of our Architect and Builder Service Representatives.
